brío³

The evolution of the species.

brío³ is the 3rd generation of the Brio tabletop range from Necta. With more capacity and features plus a new design, the **brío³** is an evolution of the well-known Brio concept matching with latest customer requirements and market trends. Increased cup capacity, latest technology and high flexibility are the key words of the new **brío³**.

CAPACITY: 300 cups, up to 7 canisters with different volumes, larger perfectly balanced waste containers.

TECHNOLOGY: extremely flexible and complete 16-bit electronic control, which is compatible with the PC application Flash. This allows downloading of sales statistics (also in EVA-DTS format), software updating and cloning of existing setups through the Up-Key or a palmtop connected via an RS232 interface. Executive and MDB protocols.

Z 3000 espresso brewer and Necta mixers: another guarantee for optimum drink quality.

FLEXIBILITY: master/slave connection with Snakky and Snakky SL with combined selections and only one payment system.

Blue LCD display
2 lines x 16 characters

Canisters with
different capacities

Easy to install
on the base cabinet due
to the new and functional
prearrangement.
Available in basic (empty)
and equipped versions
(with solid and liquid
